# STARTNUMMER C.D.M DOBBELTELASTISK

## CDM MODEL BIB

SPM-teamet har utviklet en banebrytende teknisk startvest, spesielt designet for utfordringene innen konkurranseseiling.

Takket være et innovativt ergonomisk design følger plagget utverens bevegelser på en naturlig måte og sikrer smidighet samt enestående komfort selv under de mest krevende manøvrene.

Startvesten er laget av bi-elastisk stoff, som gir perfekt passform og former seg etter kroppen som et ekstra hudlag. Den tekniske tekstilstrukturen sørger også for maksimal skarphet og kvalitet i gengivelsen av logoer og sponsorprofiler. Vestene er tilgjengelige i to varianter: med eller uten ermer.

The SPM team has developed a cutting-edge technical bib, specifically designed for the challenges of competitive sailing. Thanks to an innovative ergonomic design, the garment follows the athlete's every movement with total ease, ensuring fluidity and unparalleled comfort even during the most demanding manoeuvres.

Made from **bi-elastic fabric**, it ensures a perfect fit that contours to the body like a second skin. Also, the technical weave guarantees maximum definition for the rendering of logos and sponsor branding.

The bib is available in two versions: with or without sleeves.

### MEST ETTERSPURTE / MOST REQUESTED BIB

Begge modellene kan leveres med sentralt hull.

*Both models can have a central hole added*

#### UTEN ERMER / Without sleeves

"C.D.M."

# SIKKERHET

# SECURITY

Grazie all'esperienza maturata in oltre quattro decenni come fornitore ufficiale per la Coppa del Mondo di Sci Alpino, SPM offre materassi di protezione ad altissime prestazioni. Progettati per garantire i massimi standard di sicurezza, i nostri prodotti sono interamente personalizzabili in termini di dimensioni e grafica per adattarsi a ogni specifica esigenza del campo di regata.

Realizzati in **TS10**, i materassi sono impermeabili, leggeri da trasportare e facili da installare.

With over four decades of experience as an official supplier for the Alpine Ski World Cup, SPM provides high-performance protection mats. Designed to meet the highest safety standards, our products are fully customizable in terms of size and graphics to suit the specific requirements of any race course.

Made from **TS10**, these mats are waterproof, lightweight, and easy to install
