

MOGULS & DUAL MOGULS

Conform to FIS rules, these gates are studied for **freestyle moguls**, dual moguls gates (cod. 3427009) have a reduce width and are placed in the middle part of the slope to split up the tracks, while standard gates (cod. 3427008) are placed sidelong.

Frame has a **breaking point** in the event of an athlete's impact
